INTRODUCTION

The information contained in this report was compiled from the Annual Public Library Statistical Reports which were filed with the Connecticut State Library for the year ending June 30, 1982.

In order to qualify to receive a state aid payment, public libraries are required by law to submit a completed statistical report with the State Library no later than October 1 of each year.

This report contains statistics from public libraries located in 160 towns. There are in total 198 public libraries in Connecticut. Eight libraries did not apply for state aid during this fiscal year. One library did not apply but sent in statistics for inclusion in this report.

This year's report contains many additional categories of information which we hope will be useful in local planning activities.

In producing this report, I wish to thank the following individuals for their assistance: Nancy T. Browdy, Sheila Brown, Cindy Cooper, Dorothy Many, Katharina Mayer, and Mollie Wilscam.

Leslie B. Burger

HOW TO USE THIS REPORT

This report is divided into four sections:

SECTION 1 - STATEWIDE STATISTICS

SECTION 2 - SUMMARY TABLES

SECTION 3 - DATA FOR INDIVIDUAL TOWNS (ARRANGED ALPHABETICALLY)

SECTION 4 - DATA FOR INDIVIDUAL TOWNS (ARRANGED BY POPULATION GROUP)

SECTION 1 - STATEWIDE STATISTICS (p. 4)

The first section presents information for statewide averages for the total number of volumes held, total circulation activity, total income from all sources, and total operating expenditures for the 191 reporting libraries. Averages are computed to determine volumes held per capita, circulation per capita, and operating expenditures per capita. All averages have been computed by using a total population of 3,107,632.

SECTION 2 - SUMMARY TABLES (p. 5)

The seven summary tables in this section display the mean (average), median and the 10th, 25th, 75th, and 90th percentile values of each indicator for the seven population groupings.

SECTION 3 - DATA FOR INDIVIDUAL TOWNS (ARRANGED ALPHABETICALLY) (pp. 6-11)

This section contains data in 21 categories* for each of the libraries which submitted a statistical report.

SECTION 4 - DATA FOR INDIVIDUAL TOWNS (ARRANGED BY POPULATION GROUP) (pp. 12-19)

In this section, the state's population has been divided into seven population groups: 0-1999; 2000-4999; 5000-9999; 10,000-24,999; 25,000-49,999; 50,000-99,999; and 100,000+. Towns of similar populations are grouped and data are displayed in the same categories described previously in Section 3. Any persons using the report can then compare their library to a library in a town of similar size.

a. Population - Figures are those reported in the *1980 U.S. Census.*
